

Data Hub Q2.3 2025 RELEASE NOTES

GS1 US Data Hub allows you to identify, create, manage, share, and verify product and location data through one convenient platform. There are two focus areas for this update. First, the Manage Products page has undergone a redesign, most notably adding responsive design principles. Second, Data Hub | Location View/Use has undergone a complete overhaul with vastly improved search performance and an enhanced design.

Enhancements

GS1 US Data Hub | Product

- Updated Manage Products page with responsive elements
 - Customize the product table with only the data you want to see
 - Infinite scrolling

GS1 US Data Hub | Location

- Updated View/Use page to include new data table and search capabilities
 - Customize the data table to see the columns you want to see
 - Shared and Not Shared GLNs will appear in the same table while still hiding unshared attributes
 - Infinite scrolling
 - Improved sorting and filtering
 - Addition of Last Modified date column
